

Deflagrating Spoons

Brass Cup / Iron Cup

CH1681-001

CH1683-001

Description:

The deflagrating spoon is the standard pattern with 385mm long rod, 83mm diameter cap and 20mm diameter cup.

The rod is iron with zinc plating as protection and the cap can be either brass or aluminium. The cup is riveted to the bottom end of the rod and can be brass or iron.

Generally used for the burning of materials inside gas jars or similar.
