

Plate Electrodes

Tin Plates

EM2420-001 & EM2421-001

Description:

Plates of tin for experiments in electrolytes or for conductivity experiments.

Each plate is fitted with a simple screw terminal for the attachment of a wire.

EM2420-001	Length: 100mm	Width: 50mm	Thickness: 1.5mm
EM2421-001	Length: 75mm	Width: 25mm	Thickness: 1.5mm

Designed and manufactured in Australia
