

Plate Electrodes

Stainless Steel Plates

EM2410-001 & EM2411-001

Description:

Plates of stainless steel for experiments in electrolytes or for conductivity experiments.
Each plate is fitted with a simple screw terminal for the attachment of a wire.

EM2410-001	Length: 100mm	Width: 50mm	Thickness: 1.5mm
EM2411-001	Length: 75mm	Width: 25mm	Thickness: 1.5mm

Designed and manufactured in Australia
